

The National Association of Broadcasters, ClearChannel, and thye mega-conglomerates are threatening our democracy. Please make them accountable to the public by having MORE local content, local music, diverse styles, community events, community awareness, racial diversity, and gender awareness. The radio/media is not like any other product. It is the arteries of a viable democracy!! Please tell the NAB that!! They won't listen to people like me, i.e., citizens. You, the FCC, will listen. Right?
